The NEHEMIAH PROJECT: MONTEVIDEO

Nehemiah 2: 17: Then said I unto them, Ye see the distress that we are in, how Jerusalem lieth waste, and the gates thereof are burned with fire: come, and let us build up the wall of Jerusalem, that we be no more a reproach.

Nehemiah 2:18: Then I told them of the hand of my God which was good upon me; as also the king's words that he had spoken unto me. And they said, **Let us rise up and build.** So they strengthened their hands for this good work.

AIM:

Reconstruct the Temple in Montevideo city, and plant in the building an International Church of the Foursquare Gospel and the National Headquarters.

RATIONALE:

Reasons for which we should accept this challenge:

1. We have felt God's confirmation, and received a prophetic word about the reconstruction (May 22nd, 2005 – Isaiah 61:4,5). Added to this we believe in a King that will give us everything we need (Nehemiah 2:4), We have had great victories so far, as we know people who are willing to support us. (Nehemías 2:18)
2. Montevideo is the most important city in Uruguay. It concentrates 50% of the total population in Uruguay, of about 1,300,00 people altogether. There are big evangelical churches in it, but our denomination is still not known there.
3. The church has a property down town, but it is in great need of reconstruction. With help we could do this and plant the FS church there.

STEPS FOR THE RECONSTRUCTION:

1. Church Planting –

– Move the National Headquarters and of Pastor Sydney Silva and family to the city of Montevideo.

- Rent a house for the family to live in;

– Start an evangelistic movement to plant the church;

-Slightly reconstruct the building for the National Offices and a room for church services;

- Start the church services;

Estimated time for this: eight months, starting November 2008.

2. Generate financial resources for the reconstruction of the building - THE NEHEMIAH PROJECT:

During the first semester of 2009:

Find resources with the help of churches and people that will support the project.

Contract professional help to have a technical project to reform the building.

During the second semester of 2009:

Having the necessary resources, we will start the reconstruction of the building and the planting of the church.

Reforms needed

We have identified, with professional help, the following areas that need reconstruction:

– ROOFING:

This needs a complete replacement, together with a change in its height.

– ELECTRICITY AND WATER:

The existing electric wiring and water pipes are useless: they need to be replaced.

– WALLS AND FLOORS:

The floor has not been finished, and ceramic should be placed. Walls need to be restored and plastered.

- TOILETS AND OFFICES:

Bathrooms as well as offices, the sanctuary, extra rooms and the pastoral home need to be built.

- EXTERIOR:

It needs minor repairs and complete painting.

3. Investment:

– 1st Stage Church Planting:

A monthly investment will be needed to cover the rent of the pastoral home, help for the pastor and family, TV and other forms of communication for the extension of His Word for two or three years.

Moving of the Silva Family from Rio Branco City to Montevideo City.

– 2nd Stage Reconstruction:

The initial investment will be of u\$s 60,000 for the reconstruction.

4. How you can help:

We need help for both aspects of the project, the reconstruction of the building and the planting the church. Donations from churches or people who have a passion for missionary work will be gladly accepted.

Donations can be monthly, in instalments or one only payment.

To send your donation from abroad

Thru Western Union.
